

DANIELA MANZANO | Frontend Developer

Córdoba, Argentina - +54 9 351 8000033 - [danielamanzano.dev@gmail.com](mailto:danielamanzano.dev@gmail.com) - [/in/danielamanzano/](https://www.linkedin.com/in/danielamanzano/)  
[github.com/ManzanoFernanda](https://github.com/ManzanoFernanda) - <https://danimanzano.vercel.app/>

PROFESSIONAL EXPERIENCE

- **Front-end Developer - UI/UX** | No Country | Jul 2024 - Present

Collaborating with a team to design and develop user interfaces using React, Tailwind CSS, and JavaScript technologies. Implementing reusable components and optimizing application performance ensures a smooth and efficient user experience. Participated in code reviews and provided constructive feedback utilizing HTML5 and CSS3 for web development and focused on RESTful API integration.

- **Data entry** | B-Gaming | Apr 2023 - Dec 2023

Managed data entry and data management using Office tools. Used programs to decrypt and encrypt sensitive information. Generated detailed analysis and reports using Power BI, demonstrating strong analytical skills and problem-solving capabilities.

- **UI/UX - FrontEnd Developer - Tester** | Nolock | Jun 2022 - Jan 2023

Created wireframes and applications, implementing atomic design with Figma. Optimized product performance and accessibility, always prioritizing the user experience. Worked as a tester, using Cypress.io for automated testing. Participated in code reviews and provided constructive feedback. Leveraged analytical skills and knowledge of design patterns to enhance frontend solutions.

- **Full-Stack Developer** | FabricArg | Jul 2022 - Nov 2022

Internship focused on learning and applying C# and SQL Server technologies. Developed backend and frontend functionalities. Participated in training activities and practical exercises. Demonstrated strong problem-solving and analytical skills. Architected the implementation of frontend solutions and drove the adoption of best practices in coding standards and performance optimization.

PROJECTS

- **FrontEnd Developer - UI/UX** | “Celebria” | NoCountry

Engineered a web platform with mobile adaptation for event organization.

Technologies: React.js, Tailwind CSS, Next.js.

- **Developer** | “Portfolio” | Own project

Engineered a web platform with mobile adaptation for event organization.

Technologies: React.js, , Tailwind CSS, Next.js, Vercel.

- **Tester** | “Holitrends” | Nolock

Conducted E2E testing for the CRM system, ensuring correct operation from user interface to data management.

Technologies: Cypress.io, JavaScript.

- **FrontEnd Developer** | “Hpy Camper” | Freelancer

Developed frontend mobile and web screens for a camping reservation platform in Sweden. Focused on creating intuitive and accessible interfaces, collaborating with product and design teams to define technical requirements.

Technologies: React.js, Tailwind CSS, Next.js.

- **UI/UX** | “Alize 2.0” | Nolock

Redesigned a web platform for technical assistance and warranty tracking. Created new interfaces and improved the technical user experience.

Technologies: Figma, HTML5, and CSS3.

- **UI/UX** | “Hypervisoul” | Nolock

Designed screens using Figma for a real-time traffic monitoring application. Developed a functional and attractive prototype.

EDUCATION

- **Software Development Engineer** | Córdoba Higher Technical Institute | Feb 2020 - Jun 2024

Learned C#, Python, Haskell, HTML, CSS, jQuery and Java. Participation in hackathons and seminars.

- **English Sworn Translator** | Córdoba National University | Mar 2018 - Jun 2017

English translation, interpretation, grammar and phonetics studies.

COURSES AND CERTIFICATIONS

- **Programming technician** | Córdoba Polytechnic Institute
- **React y Redux, React Router, TailwindCSS, Context y Hooks** | Udemey
- **Docker, Kubernetes, Jenkins, AWS, Git** | Udemey
- **Web and mobile design with Figma** | Udemey
- **IT Essentials** | Cisco

SKILLS

- **Coding:** JavaScript | C# | TypeScript | React | NodeJS | HTML | CSS
  - **Design Tools:** Photoshop | Figma | Illustrator
  - **Development and Automation:** Jenkins | Docker | Cypress.io | Power BI
  - **English: Advanced with a B2 level**
- **Data Bases:** SQL Server | PostgreSQL
  - **Project Management:** Jira | Agile | Scrum | Miro
